THE SUMMIT DIFFERENCE

Licensed Vocational Nurse

DISCOVER... A Career as a Healer

Helping people and enabling them to lead healthier lives is a calling. It takes someone with compassion, with knowledge, with skills, and with an understanding of how to relate and communicate. At Summit College, in the Licensed Vocational Nursing program, these are the characteristics students develop, strengthen, and sharpen.

The power to pursue your career as a licensed vocational nurse lies with you. And the education and training that will get you there, lies here at Summit. You'll learn how to work alongside physicians as they provide a broad array of treatments to their patients. And you'll gain the essential, hands-on training in modern labs and facilities.

DISCOVER... A Distinctive Program

As one of the largest LVN programs in California, Summit's program offers knowledge and skills associated with medical/surgical nursing, gerontological nursing, pediatric nursing, maternity nursing, and rehabilitation nursing. You'll hone your skills in exceptional, modern clinical labs and facilities. And you'll enjoy more clinical options throughout the area. In this program, among other areas, you'll learn...

- Nutrition and psychology
- Anatomy and physiology
- Nursing fundamentals and process
- Patient education
- Normal growth and development
- Pharmacology
- Communicable diseases

And, with **no waiting list**, you'll be able to get started and achieve your goal on *your* schedule, and on *your* terms.

DISCOVER... A Powerful Calling

As a student in Summit's LVN program, you'll go beyond learning the knowledge and skills it takes to succeed, you'll also learn how to think critically, solve problems creatively, communicate effectively, and lead others with confidence. You'll be a critical member of the health care team, and you'll be on the front line of working directly with patients and guiding them through the process. Some of the things you'll do as an LVN include...

- Measuring and recording patients' heart rate, blood pressure, and other vital signs
- Preparing patients for exams or procedures
- Assisting physicians and registered nurses with tests and procedures
- Performing routine laboratory tests
- Supervising nursing assistants and aides
- Updating patient medical records

“ I have found that this Career College is not like the ordinary. The Nursing Administrators guide you through the right track of excellence to ensure you will pass the National Council Licensure Examination (NCLEX).”

~Gerry Ann, Summit Graduate

THE SUMMIT DIFFERENCE

Licensed Vocational Nurse

DISCOVER... A Career in Nursing

When you graduate from Summit's LVN program, you'll have the knowledge it takes to make it in the fast-paced world of nursing, where jobs are on the rise. In fact, the U.S. Department of Labor projects the employment of LVNs to grow by much faster than average (14% or higher) through the year 2024. And according to O*Net, the starting salary in 2015 for licensed practical nurses and licensed vocational nurses was \$35,760 in California.

As a graduate of this program, you'll be prepared to work in...

- Doctors' offices
- Hospitals
- Clinical settings
- Nursing home facilities
- Rehabilitation facilities
- Correctional facilities

DISCOVER... The Summit Difference

The LVN program at Summit offers an abundance of support for when you take the National Council Licensure Examination (NCLEX). At no charge, you can take advantage of full-time NCLEX tutoring services, NCLEX review classes, and you may even be eligible to receive financial assistance towards paying your first-time application, registration, and licensing fees associated with obtaining your LVN license after you pass the state boards. Additionally, you'll enjoy...

- Personal attention from outstanding, accomplished faculty
- A wealth of academic support, free tutoring services, and a Learning Academy open six days a week offering a modern computer lab
- A rich abundance of career service support, including resume assistance, mock interviews and workshops, and externships
- Excellent, modern facilities and resources
- Schedule options that include day, evening, and weekend courses
