

3/17/2020 UPDATE**

Dear Summit College Students,

This is an update to the information provided yesterday.

We have two goals: **to protect our students, faculty, and community, and to cause as little disruption as possible to your educational progress.**

Summit College leadership has made the decision to make the following modifications to our programs, and in the way we deliver courses in order to ensure the safety of our students. **Effective Tuesday, March 17th through March 31st all students in all programs will be temporarily moved to a Distance Learning modality.** Classes will be done by home study and Distance Learning under the direction of your instructors.

This situation is fluid and we are working to keep everyone informed as things change. Please contact your instructor if you have not received directions on how your course delivery is changing.

Our staff members and faculty will report to work as usual and will be available for any questions you may have. We are here to support you and ensure you complete your educational journey successfully.

We thank each and every one of you for your commitment to Summit College, your community and yourself. Together, we will get through this challenging time and see you at graduation!

Sincerely,
Summit College Administration
